AMOS L. ROLLINS, } Selectmen
 CHARLES HAYES, } of
 WILLIAM H. BEBRY, } Alton.

ALTON, March 1, 1889.

We, the undersigned, having examined the foregoing account, find it properly vouched and correctly cast.

ALONZO S. FRENCH, }
 DAVID H. MORRISON, } Auditors.

SELECTMEN'S REPORT.

The foregoing report contains a synopsis of our financial transactions the past official year, which is respectfully submitted to the inhabitants of Alton. The town voted to raise the sum of \$1500 00 for the current expenses of the year; also voted to purchase a road machine, which cost the town \$265 00, but made no appropriation for the same. The cost of breaking roads has been \$3572 34, as returned by the agents, a sum far in excess of previous years, which, together with amount of last year's bills paid by the present board, is the main cause of the increase of town debt.

Alton, March 1, 1889.

One term of eight weeks, taught by Miss Edith V. French. Whole number of scholars, 12; average attendance, 10.

It was decided at the first meeting of the committee, in April, that the Bennett, Lang and Bay schools should be consolidated with the village school. It was apparent that the number of scholars at the Bennett and Lang schools did not warrant their continuance. The Bay schoolhouse, situated so near the village, was the reason why it was thought best to not maintain a school at that place. It is but fair to say, however, that the School Board were not unanimous in that opinion. All the other schools have been kept at the same places as last year, with the exception of the second term of the Morrison school, which was united with the school at Stockbridge's Corner. Each term of the Grammar school was taught by a different teacher, a change that your committee very much regretted, but were quite unable to avoid. This school was taught during the summer term by a teacher who came well recommended, yet we are impelled to acknowledge that but little improvement was made. The following term was taught by C. H. Twombly of Strafford, a teacher of much experience, and under whose instruction the school made such progress in the various branches taught as to give general satisfaction, and we exceedingly regretted our inability to

retain his services the next term. There is no more trying and laborious post in town than is that of the principal of this school. To fill it well requires a rare combination of patience, kindness, firmness and dignity. We have been fortunate in retaining in our other schools nearly all the teachers that were employed one year ago. In our opinion, one of the most essential points that have contributed to the good of our schools has been the employment of teachers with whom we were personally acquainted. During the past year we have had many excellent schools, yet we regret to say that several have been nearly if not quite failures. Defects in school government have been manifest in some instances, and there has not been in every case such a good interest in the work of instruction as was desired. School discipline is not a matter to be treated lightly. It is not a well ordered school alone that is to be secured, but it is an influence reaching to the manners and conduct of the scholars through their whole lifetime. A good man or woman occupying the teacher's desk is sending out an influence daily, and is teaching truth, honor and virtue though the lips may never be opened upon these subjects. Of the various branches that have been taught, book-keeping has received more than the usual amount of attention. No one engaged in practical business can do without a knowledge of how to keep accounts. This study is also highly advantageous to young ladies, as it is now customary to employ females in this department of business. We recommend that it be more generally taken up by all of the older scholars. Writing has been practiced in most all of the schools and map drawing has been successfully taught in several. There has been a general improvement as regards the attendance at many of the schools, cases of absence and tardiness being much less frequent than last year. One hun-

dred and twelve scholars have not been absent or tardy a half day of a term. We are glad to see so many names of parents and citizens recorded in the registers as visitors. The encouragement given to both teachers and scholars by these visits cannot be overestimated.

The district property in the way of buildings is generally in good repair with the exception of the one at Stockbridge's Corner and the Varney schoolhouse. These ought to be repaired the coming year, and sufficient appropriations for repairing the same should be made at the annual meeting. It will be remembered that the district voted at the last annual meeting to raise the sum of three hundred dollars for the repair of schoolhouses. As the record of the same, however, was not received by the selectmen within the time required by law, no tax was assessed by them for that purpose.

Respectfully submitted,

OLIVER J. M. GILMAN,	}	Board of Education.
